

Survey Form

Name - _____

ID - _____

Project Description: We are building a common storage portal for the study material required in the institute with additional facilities of reviewing and rating books and other course related material. This will help the students to quickly get started with the best option for their course as the course material will be reviewed by faculty and other fellow members.

We will also facilitate buying and selling of books/second hand books between students.

We require a quick survey for this project to include all the features that might make your experience with our project/website more productive and easy to use.

Kindly answer the questions below and provide your valuable suggestions (You can check multiple boxes.)

You as a seller

(1) What would be the most convenient way for you to sell any book?

☐ Android application

☐ Web application

☐ Others(specify)_____

(2) How would you make sure your product prevails over other products?

☐ Price

☐ Old / New

☐ Put some images

☐ Others(specify)_____

(3) How would you make sure that people keep a look on your product?

☐ Adjust the price
