Agenda of our meeting

- **SRS** at the final stage.
- Starting of the Design phase.
- Work partitions for the Design phase.

Discussion

We decided that first of all, we will finish the **SRS** then will review the **SRS**. After that will start design phase, UI(User Interface) and Database design at the abstract level. For forum implementation, we will use **Hash-tags** for every category. For book compulsory ISBN(Full and Partial). We'll include **Hash-tag** only limited to our domain and rest will come to others.

Conclusion

- **Hash-tag** based Forum implementation and category wise **Hash-tag**.
- **Google API** for book which will use ISBN of the book.
- Popularity will not be there we will use Rating for filter searching.
