Agenda of our meeting

- Faculty interview analysis.

- convert Proposal into final version.

- Preparing **SRS** documentation and partitions of **SRS** document.

Discussion

- We discussed and reviewed the proposal. In faculty interview analysis, we were told to include some of ideas we discussed like green board discussion, web and android app, open forum etc.

- Green board discussion is a kind of online portal which allows a person erase previous texts or topics and write new thoughts about a particular topic. And finally there will be a video of the discussions that happened and anyone can look at it and can know about what happened in the discussion.

- There will be no book upload because of the copyright issue, for that there should be moderator that will decided.**SRS** documentation started/ Task was to find template and extract some information about the **SRS** document.

Conclusion

- Green board idea is not feasible within the given duration of time.

- Open forum will be there that means will make open forum so one can comment, reply or post any question.

Next meeting

Agenda of the next meeting:

- Survey Analysis(Cont.)

- Proposal writing and phase partitioning of the project(Cont.)

Venue - Room 107
Date - 14 September, 2015
Time - 10 pm
